EDUCATION

Galgotias University
Greater Noida, Uttar Pradesh

B.Tech, **CGPA: 7.77**

Sep 2022 – Jun 2026

SKILLS

- **Languages:** JavaScript, Java, HTML, CSS, SQL
- **Frontend:** React.js, Redux, Bootstrap, Tailwind CSS, Framer, DaisyUI, MaterialUI
- **Backend:** Node.js, Express.js, MongoDB, REST APIs, Socket.io
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, npm
- **Others:** DSA, Object-Oriented Programming

PROJECTS

CampusAid | Campus Community Web App

Oct 2025 - Present

- Building a MERN-stack platform for students to join communities, access study resources, view events, and collaborate.
- Implementing secure **JWT authentication with college-email verification**.
- Developing **real-time chat and notifications** using Socket.io.
- Designing REST APIs and database models for users, groups, events, and study materials.
- Adding an **AI-powered FAQ assistant** for campus-related queries.

Chit-Chat | Fullstack Real-Time Chat Application  

August 2025

- Built a real-time one-to-one chat app using **React, Node.js, Express, MongoDB, and Socket.io**, following the MVC pattern.
- Implemented **JWT-based authentication** with secure cookie sessions and protected routes.
- Used **Zustand** for global state management and **Cloudinary** for image upload handling.
- Designed a responsive UI with **Tailwind CSS + DaisyUI**, supporting 35 dynamic themes and dark mode toggle.

Portfolio Website | Personal Portfolio  

Dec 2025

- Developed a modern personal portfolio website using **React, TailwindCSS, Vite, and Node.js**.
- Built to showcase creative work and technical skills, resulting in a 3x increase in profile views.
- Designed a clean, responsive, and visually appealing UI for seamless cross-device experience.
- Optimized performance and adaptability for multiple resolutions, ensuring accessibility across devices and screen sizes.

TaskFlow | Team Task Management Web App  

May 2026

- A full-stack team task management application where users can create projects, assign tasks, and track progress with role-based access (Admin/Member).
- Built using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** with RESTful APIs, JWT authentication, and dynamic dashboards.
- Implemented features like project collaboration, task status tracking, and responsive UI for seamless user experience.

CERTIFICATIONS / ACHIEVEMENTS

- Full Stack Web Development Virtual Internship, AICTE Eduskills
- Software Engineering, NPTEL
